OUR EXPERIENCE •

Zela Aviation (www.zelaaviation.com) has built its reputation from working with a wide range of Airlines and Tour Operators across the world in providing aviation solutions whether they be ACMI or All Inclusive Charters.

From this we have a wealth of experience on handling ACMI leases whether they be wet or damp, ranging from ATR742 equipment to A340 or larger.

With offices in the UK & Cyprus, Zela Aviation works with many leading EU independent Tour Operators and a range of airlines.

HIGHLY SPECIALISED •

Zela offers to the marketplace a 24hour ACMI service, actively marketing any spare capacity that its extensive client base may have available. Zela is also active in the short and long term ACMI leasing of aircraft to airlines that need to address seasonal demand, temporary fleet structure problems and expansion of network or charter work, to cover technical problems, scheduled maintenance inputs, program disruptions and so on.

MEETING OUR CUSTOMERS NEEDS •

Since its inception Zela Aviation has successfully placed a wide range of narrow bodied aircraft across the world for clients including national flag carriers on medium to long term ACMI contracts whether they be full wet leases or damp leases.
